ECTS

Program Information Package

Program: Department of Oral and Dental Health Program | Total ECTS: 120 | Date of Issue: 22.11.2026

Program Information

Program Name	Department of Oral and Dental Health Program
Education Level	Pre Bachelor
Language of Instruction	Turkish
Program Duration	4 Semesters
Maximum Duration	8 Semesters
Head of Program	Dr. Öğr. Üyesi Mehmet KARAGÜLLE
Internship	Required
Total ECTS	120

Admission and Registration Requirements

Students are admitted to the Oral and Dental Health Program by making their preferences based on the TYT score type within the scope of the university entrance examinations organized annually by ÖSYM, taking into account the base scores of the previous year.

Graduation Requirements

In accordance with Article 40 of the Undergraduate and Associate Degree Education and Examination Regulation of our University, a student becomes eligible to receive an associate degree diploma from the relevant program if the student successfully completes all courses in the curriculum of the program in which they are enrolled, achieves a minimum cumulative grade point average (CGPA) of 2.00 out of 4.00, and completes at least 120 ECTS credits.

Occupational Profiles of Graduates

Graduates of the Oral and Dental Health Program have employment opportunities in public and private healthcare institutions, such as Oral and Dental Health Centers and Oral and Dental Health Polyclinics.

About the Program

The Oral and Dental Health Program, offered within the Vocational School of Health Services at Antalya Bilim University, is a two-year associate degree program aimed at educating qualified oral and dental health technicians who will assist in dental healthcare services. Within the program, students receive both theoretical and practical education in areas such as oral and dental anatomy, dental materials, infection control, dental radiology, clinical practices, and patient care.The program aims to equip students with the knowledge and skills required to assist dentists in dental clinics. Throughout their education, students gain practical experience in sterilization procedures, patient preparation, the use of dental instruments and equipment, clinical organization, and patient communication.Graduates of the program can work as oral and dental health technicians in public and private dental hospitals, oral and dental health centers, and private dental clinics.

Exams, Assessment and Evaluation

At our university, examinations consist of midterm exams, final exams, make-up exams, exemption exams, additional exams, and single-course exams. Examinations are conducted according to the schedule prepared and announced by the Vocational School of Health Services. Students are required to present their student identification cards in order to take examinations. There is no resit (make-up) examination system at our university; however, a summer school program is available.The midterm exam is conducted during the semester in which the course is offered in the associate degree curriculum of the Vocational School of Health Services. Each course has at least one midterm exam per semester. Assignments, projects, and similar coursework conducted during the semester may, at the discretion of the course instructor, be used in place of a midterm exam.The final exam is conducted at the end of the semester during the dates specified in the academic calendar. In order to be eligible to take the final exam, students must have completed at least 70% attendance in the course.Students’ academic performance is evaluated by calculating their grade point averages at the end of each semester. Starting from the end of the second semester, students with a cumulative grade point average (CGPA) of 2.00 or above are considered academically successful, while those with a CGPA of 1.99 or below are considered academically insufficient.Students who fail a course included in the program curriculum are required to retake the course in the first semester in which it is offered. Even if all other graduation requirements are fulfilled, a student cannot graduate without successfully completing all failed courses.

Program Educational Objectives

The aim of the Oral and Dental Health Program is to educate qualified oral and dental health technicians who possess the fundamental professional knowledge and skills required to work in dental healthcare services. The program aims to enable students to apply infection control, sterilization, patient preparation, and the use of dental equipment in dental clinics in accordance with ethical and professional standards. In addition, the program seeks to train healthcare professionals who are open to professional development, possess strong communication skills, are able to work effectively in teams, and prioritize patient safety. Furthermore, the program aims to provide students with the academic foundation necessary to follow current developments in healthcare services and to continue their education at the undergraduate level when needed.

Transition to Higher Degree Programs

Graduates of the Oral and Dental Health Program have the opportunity to transfer to undergraduate programs announced by ÖSYM through the Vertical Transfer Examination (DGS).

Recognition of Prior Learning

Students are admitted to our Oral and Dental Health Program through central placement conducted by ÖSYM, as well as through inter-institutional transfers based on academic achievement between domestic and international institutions, inter-institutional transfers based on central placement scores, and intra-institutional transfers.Students admitted to the Oral and Dental Health Program may request the adaptation (transfer/recognition) of the courses they have successfully completed in the undergraduate or associate degree programs in which they were previously enrolled to the curriculum of our program before completing their registration.This request must be submitted through a petition to the Vocational School of Health Services at the beginning of the academic year in which the student will begin their studies. The student must attach the original copy of an approved transcript to the petition.The adaptation (course recognition) process is carried out in accordance with the principles determined by the Vocational School of Health Services Administrative Board and the commissions appointed by the board. During the adaptation process, course contents and ECTS workload are taken into consideration.

Program Outcomes

PÇ-1 It can effectively perform the sterilization and disinfection process in dental clinics.

PÇ-2 Prepares the patient before dental treatment and can perform four-handed dentistry applications.

PÇ-3 He/she knows the stages of the treatments performed in dentistry and the materials and instruments used during the treatment, and arranges the necessary examination and treatment environment for the dentist's clinical work.

PÇ-4 Arranges patient appointments, maintains and archives treatment records. During this process, establishes healthy, effective and ethical communication with patients and colleagues.

PÇ-5 Mesleki yeterlilik ve Sektörler hakkında farkındalığa sahiptir.

PÇ-6 Mesleki ve etik sorumluluk bilinci ve etik ilkelerine uygun davranır.

PÇ-7 Mesleği ile ilgili temel, güncel ve uygulamalı bilgilere sahip olur.

PÇ-8 Meslektaşları, hastalar, hasta yakınları, hekimler ve diğer sağlık çalışanları ile etkin bir iletişim kurar.

PÇ-9 İş sağlığı ve güvenliği, çevre bilinci ve kalite süreçleri hakkında bilgi sahibi olur.

PÇ-10 Mesleği ile ilgili bilişim teknolojilerini (yazılım, program, animasyon vb.) etkin kullanır.

PÇ-11 Mesleki problemleri ve konuları bağımsız olarak analitik ve eleştirel bir yaklaşımla değerlendirme ve çözüm önerisini sunabilme becerisine sahiptir.

PÇ-12 Bir yabancı dili kullanarak alanındaki bilgileri takip eder ve meslektaşları ile iletişim kurar.

PÇ-13 Dental kliniklerde sterilizasyon ve dezenfeksiyon sürecini etkin olarak gerçekleştirebilir.

PÇ-14 Dental tedavi öncesi hastanın hazırlanması ve dört elli diş hekimliği uygulamalarını gerçekleştirebilir.

PÇ-15 Diş hekimliğinde yapılan tedavilerin aşamalarını ve tedavi sırasında kullanılan malzemeleri-aletleri bilir, diş hekiminin klinik çalışmaları için gerekli muayene ve tedavi ortamını ayarlar.

PÇ-16 Hasta randevularını ayarlar, tedavi kayıtlarını tutar ve arşivler. Bu süreçte hastalarla ve çalışma arkadaşlarıyla sağlıklı, etkin ve etik değerlere uygun iletişim kurar.
